

Welcome Home America

Chorus:

Welcome home America
It's been so very long
Look around and see what you've become
The times when you were beautiful
And the times when you were wrong
But all the time you tried to make us strong

Looking back on yesterday, it's really kind of sad
The people seemed to laughed at you and everything you had
They never tried to listen
They never tried to see
That all you ever wanted was to set your people free

Chorus

Look at all the people now complaining all day long
Seems they always try so hard to find something wrong
But you never said you were perfect
You only said you were free
I thank you for working so hard to keep it that way for me

chorus
